Producers of the documentary "Pathways to Prison" will join us for an expert panel discussion. Learn about our Michigan Health Impact Assessment (HIA) (Reducing Youth Arrests Keeps Kids Healthy and Successful) and what's next for your community?

We will be proposing county-wide "Screenings and Community Conversations" so it is important that you bring a dedicated delegation from your county to the August 30th summit.

Who should be part of your delegation? The people you are recruiting to create a county wide planning committee for the "Screening and Community Conversation" in your county - So public health, community members and your county officials that could be close allies on some of the following issues:

1. Raise the Age! For juvenile offenders. Keep 17 year olds out of adult prisons.
2. Civil Citations for youthful offenders. Keep kids out of courts for minor offences. (Fact Sheet - http://www.humanimpact.org/wp-content/uploads/HIP_YouthArrestsandHealthFactSheet_2017.06fin.pdf)
3. Drivers Cards for undocumented. Keep workers on the job and out of detention centers.
4. "Trauma Informed Care" for our littlest ones. Keep kids off the pathway to prison from their very first steps

Come and connect with colleagues from across the state to learn from each other to further develop our early childhood and mass incarceration/mass deportation advocacy/education action plans.
