II. Pre-Kindergarten Experience Form (Michelle)

- a. Curriculum Director Feedback
The Curriculum Directors were given copies of the Pre-Kindergarten Experience Forms. They were asked how they would like to see this used. The KRA should be considered when the final questions are created.
- b. Revisions - Next steps
Corrie and Michelle will bring back more information on what is included in the KRA.
The SRAC may need to check the alignment of the School Readiness Packet and the KRA skills.
After Corrie finds out what demographic information will be required for the KRA, the SRAC will make sure that the Preschool Experience form includes those items

III. PreK Essential Instructional Practices in Early Literacy (Corrie)

- a. TOT update

Kim and Mary Jo completed the Training of the Trainers. They now need to schedule training sessions for other early childhood educators. This training is 24 clock hours and must be completed within a two month period. Fidelity to the content must be maintained.

Michelle would like to create a list of the trainers from Ingham County, when they are going to train and who they are going to train.

IV. Ingham Early Learning Calendar

Mari reported that the CADL has \$3500 for printing new calendars. The CADL wants 1000 calendars for their use. SRAC will take any additional calendars that Mari is able to print. Mari will check to see how much it would cost to print 7 versions of translated calendars at 100 copies of each.

Minor edits were made to the calendar including adding Macaroni Kid as a resource.

SRAC currently has approximately 225 calendars. 350 calendars are needed for delivery to tier III recipients. There are an additional 900 copies still available for purchase.
