Data Review Notes from 2/19/20 Meeting:

- Increasing number of abuse and neglect cases. Why? Is it because we doing a better job of reporting these cases?
- How do we determine if what we are doing is "moving the needle?"
- Are there any other data points we should obtain?
- What are the outcomes from the Referrals? What happened with those kids/families?
- Adriana will review the data to see if she can help with any of the questions.
