Align Ingham Kindergarten Packet with the MKEO -

MKEO data will be available after Nov. 15. A random sample of 35% of children from each classroom was suggested. SRAC would like to align the Ingham Kindergarten Packet with the MKEO. We will review county wide data in January and align with our Kindergarten Readiness Packet.

Literacy Essentials

Reviewed TOT Community partners use of literacy essentials. Discussed how we could offer a series of evening and/or Saturday literacy essentials trainings at various sites (MSU lab, LCC, Spartan CDC) in early 2020.

The Early Literacy task force plans to hold more TOT trainings for Pre-K. They are working on content for a Birth – 3 Essentials training. The SRAC will work to disseminate Birth – 3 Essentials information into the community (library storytimes), as well as a GSC spotlight.
